What is DYDF

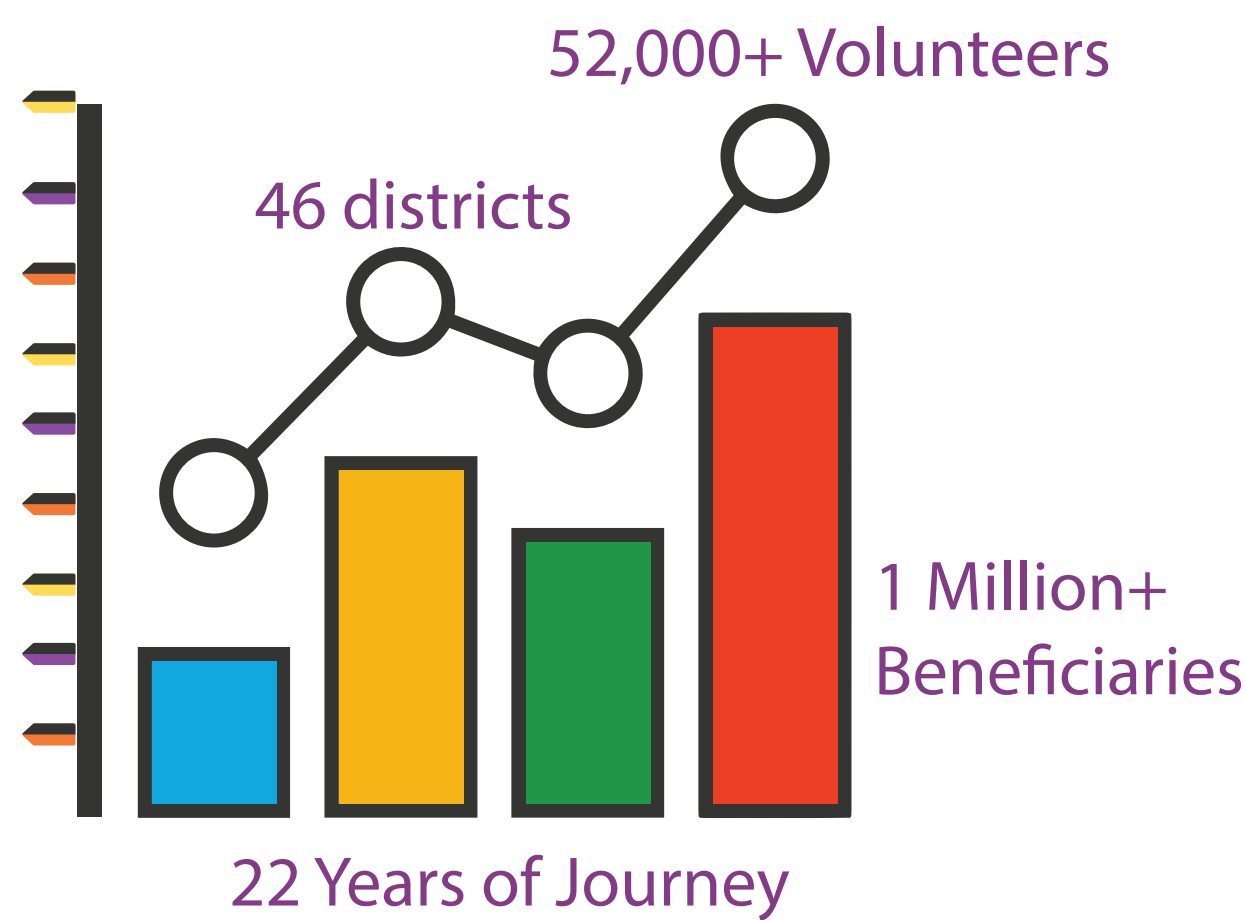

Dhrubotara Youth Development Foundation (DYDF) is one of the most prominent youth-based national award-winning voluntary organizations in Bangladesh.

Journey of DYDF

Began its journey in 2000 in Begumgonj, Noakhali District with the aim of achieving sustainable socio-economic development through empowering youths

Volunteer and Beneficiary

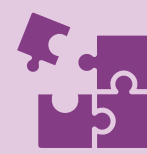

Awards:

Vision

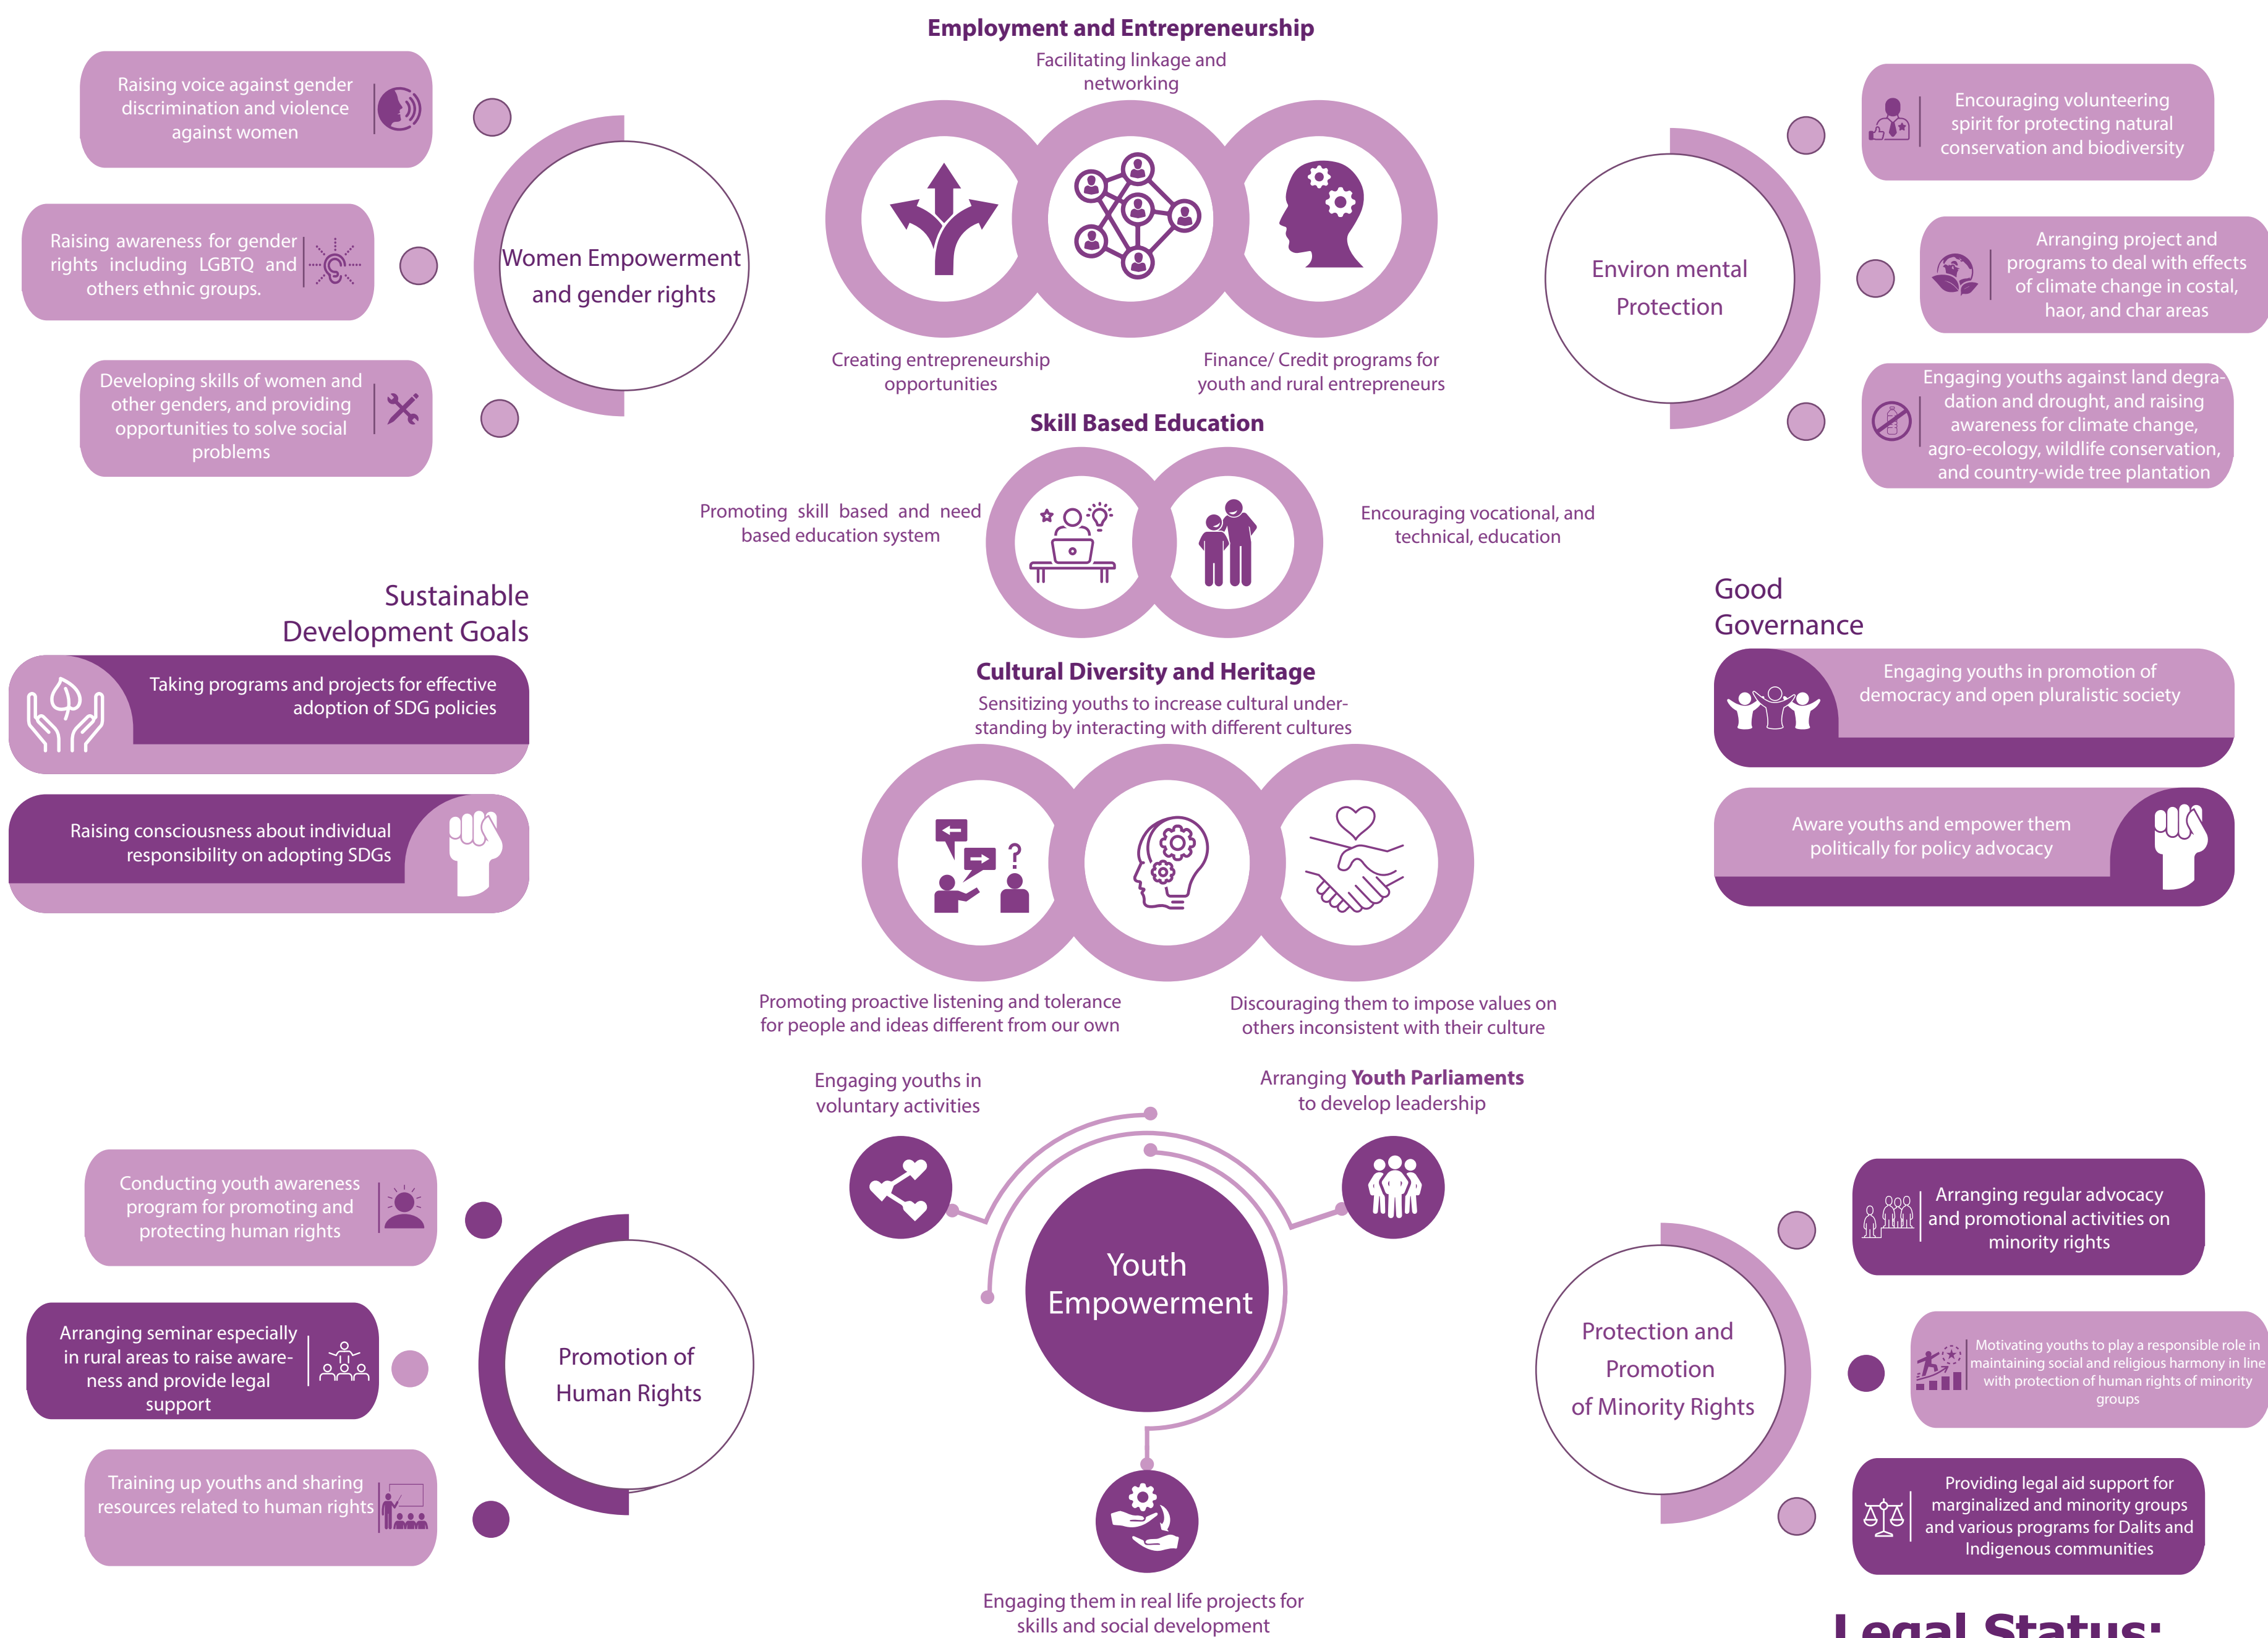

A democratic, humanitarian, educated and skilled youth population acting as change makers to bring sustainable development and equitable society.

Mission

The key mission of DYDF is to **empower youth** through developing their leadership and management skills and motivating them into becoming **responsible citizens** and using their positive energy for constructive **sustainable development** of the nation.

Focus areas and activities:

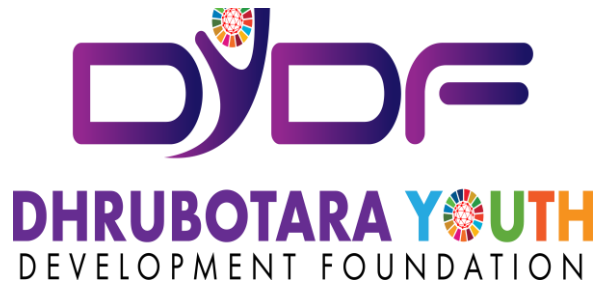

Achievements

Legal Status:

Bangladesh Youth Summit 2022 (BYS-2022)

CONCEPT NOTE

BYS 2022 is set on its path of bridging and bringing together the largest and the strongest power on Bangladesh today – the youth who aim at changing the world by driving a change in themselves and the people, leading the revolutionary developments and thereby making this world a better place to be.

Bangladesh Youth Summit 2022, this time being hosted by the largest youth base non-government, national youth award winner organization **Dhrubotara Youth Development Foundation (DYDF)**.

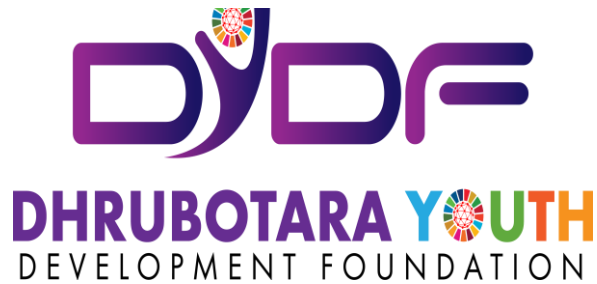

#BYS2022 gives a call to the young population across the country intending reinforced collaboration, networking and support. The focus areas this time being some of the most pressing global and national issues: **SDG & Environment, Blue Economy, 4th Industrial Revolution- ICT & Entrepreneurship, National Youth Council & National Youth Policy Implementation, Minority Rights and Critical Human Rights Issues**. Disengaged youth's issues will be special focus and youths from diversified background will be there. Thematic interventions will make BYS unique and very effective by multisectoral approach. Manusher Jonno Foundation (MJF) is partnering with us.

#BYS2022 is powered by organizations/institutions who are set to make their marks by uplifting the spirit of social consciousness by monetarily supporting and following up with the best and outstanding projects and ideas that could be implemented to bring about a major change in the lives of many. The summit also foresees an exchange of culture and academics across the audience thereby paving a way for networking and working better.

BYS 2022 – The OBJECTIVES:

Intended to initiate a major national collaboration, BYS 2022 broadly has the following objectives:

SDG & Climate Change – With the concept of bringing together the young change makers across the country, the summit intends the grass root level youth leaders, activists, entrepreneurs, motivators, researchers, speakers and change makers to collaborate with the National leaders, policy makers, stakeholders to foster quality exchange of ideas, knowledge and possible actions for betterment. BYS will give a clear understanding on SDG to youth delegates across the country. Climate issue, especially food security, LDN framework under UNCCD will be focusing area on that panel.

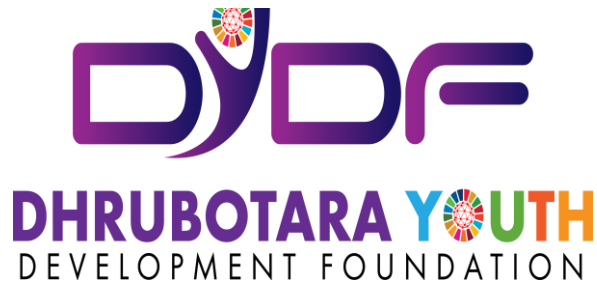

4th Industrial Revolution- ICT & Entrepreneurship: Youth Employment is a big challenge now, new innovations, skill, funding for entrepreneurship is a big challenge, especially proper planning, guidance

is most important for youth entrepreneurs. Youth Entrepreneurs need to visualize and understand 4th Industrial Revolution and their role, preparation need to enhance. BYS 2022 will give that scope to youth groups for their betterment. We will invite top CEO's, Entrepreneurs, Iconic Mentors to guide our youth delegates properly and investment scope will create through related activities and idea showcasing. We will initiate an open market place for our entrepreneurs across the country. Women Entrepreneurs will be prioritized.

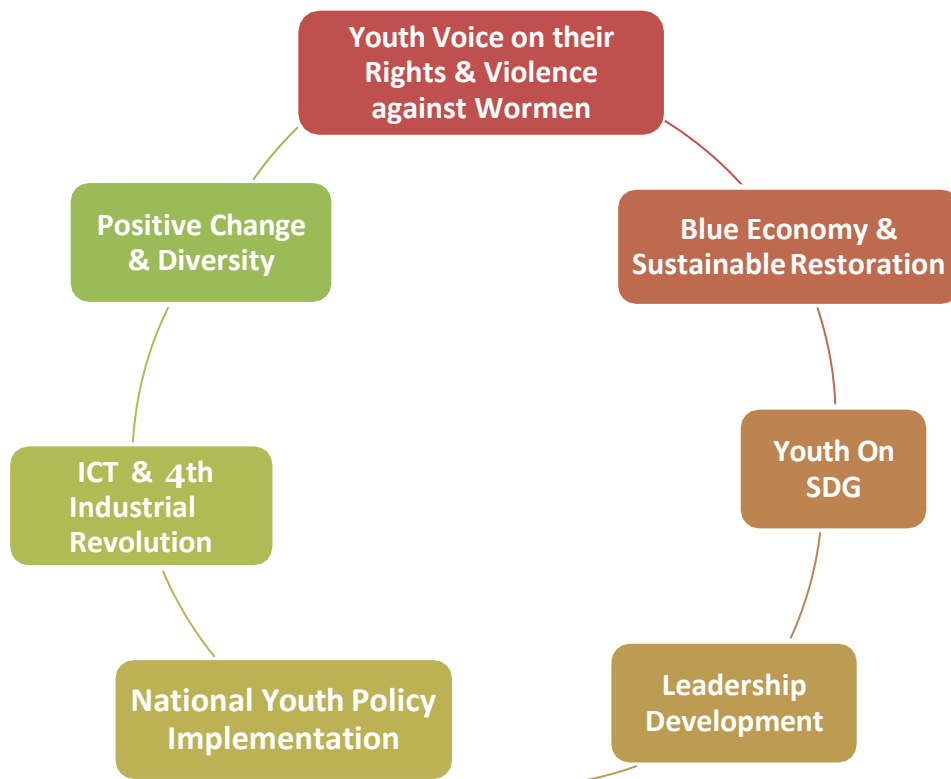

Blue Economy & Sustainable Restoration: Sustainable global development greatly depends on the strength of our blue economy. The 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs) outline this prominent connection and ways to achieve sustainability by 2030. The United Nations Environment Program estimates that half the world's population lives within 60 kilometers of the sea. They also estimate that three quarters of all large cities are located along the coast. According to the International Maritime Organization, the sea facilitates global trade by: up to 70% by value & up to 90% by volume. Thereby, the concept of the Blue Economy Session serves to complement that of the "Green Economy" by rightly highlighting the environmental challenges facing the world's oceans, which after all account for two thirds of the surface of our blue planet. As crucial providers of food, biodiversity, carbon sequestration, and energy, oceans are true global commons, whose degradation would have disastrous consequences for all of mankind. Of course, coastal countries are most affected & Bangladesh is one those countries, our economics depend most directly on the oceans, be it through fisheries, tourism or exploitation of marine resources. The threats they are facing from overfishing, marine pollution, and climate change are proof that environmental sustainability and economic development are not conflicting goals, but rather necessary complements. Ultimately, all our economies depend on a sustainable stewardship of our natural resources, be they blue or green. The goal of this session is to discuss how to utilize the Blue Economy as a tool to shift development in a country like Bangladesh towards a sustainable development trajectory building on the Rio+20 consensus & there how youths can be a vital part of such developmental glory. Noting that the Blue Economy, founded in line with the concept and principles of, and mutually supportive with the Green Economy, is a tool that offers specific mechanisms for coastal countries to address their sustainable development challenges.

Rights & Youth Advocacy- National Youth Policy: Having identified the potential barriers to the implementation of the National Youth Policy, proposed and recommended solutions that could drive a positive change, BYS 2022 intends to provide an on-going support to the young advocates & policymakers to implement national youth policy. BYS 2022 will raise voice to allocate adequate budget

for youth empowerment and formation of **National Youth Council** as per **Youth Organization registration act 2015** for youth empowerment and youth engagement on policy level.

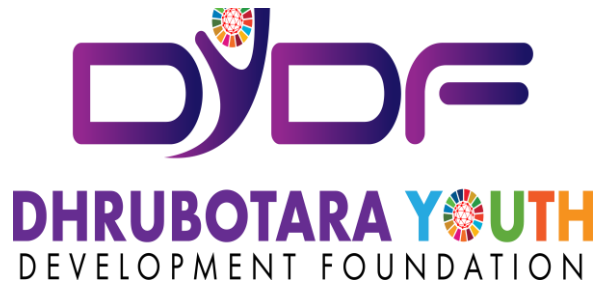

Our Aim:

BYS 2022 is here!

While DYDF raised the curtains to the youth leaders to come together and brainstorm the global, national issues and also to connect with leaders of various areas and national level, its vision of coming back with more powered objectives and mission to bring about a sustainable change in the lives of people and drive solutions with more impact has realized, as it stands to welcome the national leaders and change makers , policymakers to join hands in making a better world, better Bangladesh .

Sustainability, the buzzword of the day forms the core of DYDF. To ensure the same in the spirit of world youth and the ignited minds, DYDF Central Summit is back this year – wiser, newer and stronger by DYDF

with a lot of preparations and after **#BYS2022**, DYDF will also arrange **Youth Parliament at Mymensingh** on **March/April** to monitor the **#BYS2022** decision implementation's and track the gaps, will take action by the youth.

#BYS2022 has set its stage to connect the remotest of the dots of change makers to the most national stakeholders who influence the Bangladesh, in a larger scale.

We call for:

Creative ideas that can change the world: An idea can change the world – an idea that has the power to be turned into reality and thereby address a global concern. If you have one, the **#BYS2022** is the place for you to be.

Thesis/Project: We witness gems in people who have brought about a change in their locality/district/state/country by realizing their ideas into projects they've already taken up. Solutions to so many problems exist on their plates. Do you have one? Then fail not to write to us about them and you stand a chance to be a speaker at **#BYS2022** presenting your implemented solution.

Awards/Recognitions: DYDF will provide **DYDF Youth Icon Award** to the 10 best youth activists, achievers for better works on different sectors.

What makes BYS-2022 different?

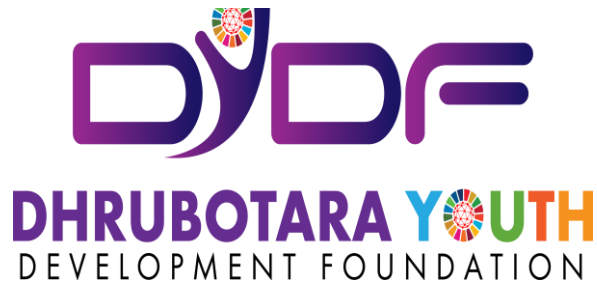

Every movement is driven by its Vision and Mission, driven by its values and led by its people while it is nurtured by the thoughts of the visionaries. The uniqueness of **BYS-2022** could be highlighted in terms of aspects like:

BYS 2022 being open and welcoming to ANYONE under the age of 35 who has driven a change at any scale, or might possess that one idea that could bring a major change in the country. We will select delegates based on their SDG focused activities.

It stands to be a platform to connect young minds across the country and we will bring youth organizations, activists, entrepreneurs, researchers under a roof with Policymaker's and experts.

It welcomes audience giving them an opportunity to build larger network to support each other in their ventures towards addressing the most pressing global & national issues.

It will create a positive impact on youth empowerment.

It gives an opportunity to the stakeholders to uplift their spirit of social consciousness by offering various roles.

#BYS2022 also stands to be a learning platform offering numerous opportunities for cultural and academic exchange with local, national delegates and 'Common men', the unsung heroes.
